Forward

Quick Installation Guide describes the initial installation procedure. This procedure is briefly segmented into 3 steps.

- 1. Install driver (Software).
- 2. Install DVR software.

3. Configure the setting program to get volume creation and to run the Main Program, which is set to 4 channel view as default.

For more detailed configuration and explanation, please refer to "Installation and User's Guide".

E-mail: support@cctvone.com Tel: 323-721-8999 Fax: 323-721-8599 www.cctvone.com

1. Installation of DVR Driver

Drivers for CAP, ACAP, LIVCAP, AMX and D1 can be installed by "installer.exe", which determines DVR model and installs proper Driver. When Hardware Wizard message shows up before the installation, click "Cancel" to close.

Open Driver folder in CD-Rom and run "Installer".

Click "Next".

Following is a chart of device list. (Depending on model, different device(s) will be displayed)

Model	Device List
CAP series	DVR Capture
LIVCAP series	DVR Live Capture
ACAP series	DVR ACapture Device
AMX series	Live MPEG Capture Device
D1 series	Live D1 MPEG Capture Device

Click "Install".

The above picture shows up when installation is completed. Click "Reboot" to restart the system. It is required to reboot the system to complete installation of drivers.

2. Program Installation

hoose Setup Language		
Select the language for the installation from	s the choices below.	
(Drinese (Traditional)		_
English Faerich (Canadian)		
French (Standard)		
Japanese		
Korean		
Portuguese (Brazilian)		
Portuguese (Standard)		
Spanish		
1		
	<pre> disck Mest> 0</pre>	Cancel

Run "Setup.exe". (Choose the language for the software to be installed.)

Click "Next".

Choose the proper media format (NTSC or PAL) and continue by clicking "Next."

The last letter of version indicates the type of board.

i.e.) CAP-C, LIVCAP-L, ACAP-A, AMX-X, D1-D.

🐱 Register Admin User 🗈 Setup Option	X	
User USER NAME : PASSWORD : Confirm P/W :	OK CANCEL	 USER NAME : Make Top admin user name. PASSWORD : Make Top admin password. Confirm P/W : Confirm the password.
Confirm P/W :		

Note: Once the Top Admin user created, it cannot be modified from User Admin Setup. To change user name or password for Top Admin user, please refer to Appendix 1.DVR Management on Installation and User's Guide.

Once setup of the software has been complete, the system will need to be restarted to allow the settings to take effect.

3. Configuration

Run "DVR Setting".

3-1. Create Volume

			9%			

Click "Disk tool", in order to reserve the space for DVR database

Make number of volumes desired at "Add Volume" and click "Add". This configuration needs to be done for each Hard Disk. Clicking "Create Volume" creates a DVR file system on all of hard disks. (Note: Leave at least 5 to 10 volume of max space allowed).

What is a Volume?

Volume is the unit used by the DVR DB system.

1 volume is equivalent to **64MB** of physical HD space. All image data is recorded in volume units. When assigned Volumes are full, the program will continue recording by overwriting volumes that contain the oldest previously recorded data. It is recommended that important data be backed up prior to the start of the overwriting process.

2. System Setup

• Initial screen: Number of camera shots that will be displayed when system is started. Adjust the value depending on the number of camera used.

• Auto Startup: Enable automatic startup of DVR Main Program upon system start.

3-3. Camera Setup

• Enable Camera: Enable or disable camera.

3-4. Run DVR Program

• Click on "DVR Main" Icon, located on Windows screen.

Refer to the Installation and User's Guide for detailed configuration of DVR program.
